Election/Restriction

1. Upon further consideration, and in view of the additional claims presented in response to the last office action, the original restriction requirement in this case is hereby withdrawn and the following new restriction requirement is hereby set forth.

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1-33, 35 and 36, drawn to electrical connector structure, classified in class 439, subclass 60.

II. Claims 34 and 43-50, drawn to a method of fabrication, classified in class 29, subclass 874.

3. The inventions are distinct, each from the other because of the following

reasons: Inventions II and I are related as process of making and product made.

The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the product can be made by a process which does not include adjusting the orientation of the support substrate (i.e. where the orientation of the support substrate is pre-set to the desired orientation).

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit:

5. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(h).
